CONTENTS Volume 50 1997

Volume 50 No. 1

Original research papers

Agrobacterium rhizogenes-mediated transformation and plant regeneration of four _Gentiana_ species
I. Momčilović, D. Grubišić, M. Kojić, M. Nešković 1–6

Effects of light regimes on anther culture response in bread wheat
H. Ekiz, C.F. Konzak 7–12

Differential sensitivity of callus derived from immature panicles of rice cultivars to the non-specific toxin of _Pyricularia grisea_
A.S. Prabhu, M.C. Rush 13–18

Phyllodied panicles caused by head smut ofmaize and vegetative multiplication of maize
G. Touraud, L. Bill, M.T. Piollat 19–26

Plant regeneration from suspension culture of _Iris germanica_
K. Shimizu, H. Nagaike, T. Yabuya, T. Adachi 27–31

Improvement of _Citrus_ somatic embryo development by temporary immersion
C. Cabasson, D. Alvard, D. Dambier, P. Ollitrault, C. Teisson 33–37

Cell Suspension Culture of _Solanum chrysotrichum_ (Schldl.) – A Plant producing an Antifungal Spirostanol Saponin
Ma.L. Villarreal, C. Arias, A. Feria-Velasco, O.T. Ramırez, R. Quintero 39–44

Comparison of NAA and 2,4-D induced somatic embryogenesis in Cassava
E. Sofiari, C.J.J.M. Raemakers, E. Kanju, K. Danso, A.M. van Lammeren, E. Jacobsen, R.G.F. Visser 45–56

Comparative analysis of callus formation and regeneration on cultured immature maize embryos of the inbred lines A188 and A632
F.B.F. Bronsema, W.J.F. van Oostveen, A.A.M. van Lammeren 57–65

Research notes

The relationship between green spot initiation and plantlet regeneration of wheat callus grown under short-term conditions
I.M. Ben Amer, A. Börner 67–70

Gametophyte culture _in vitro_ and antheridiogen activity in _Blechnum spicant_
H. Fernandez, A.M. Bertrand, I. Feito, R. Sanchez-Tames 71–74

Volume 50 No. 2

Original research papers

Ribulose-1,5-bisphosphate carboxylase and phospho*enol*pyruvate carboxylase activities of photoautotrophic callus of *Platycerium coronarium* (Koenig ex O.F. Muell.) Desv. under CO_2 enrichment
S.-H. Kwa, Y.-C. Wee, P.P. Kumar **75–82**

High frequency shoot regeneration and plantlet formation from root tip of garlic
M.S. Haque, T. Wada, K. Hattori **83–89**

Induction of somatic embryogenesis in *Azadirachta indica*
W.W. Su, W.-I.Hwang, S.Y. Kim, Y. Sagawa **91–95**

Influence of extracellular proteins, proteases and protease inhibitors on grapevine somatic embryogenesis
O. Maës, P. Coutos-Thévenot, T. Jouenne, M. Boulay, J. Guern **97–105**

***Agrobacterium tumefaciens*-mediatated transformation of shoot-buds of chicory**
F. Frulleux, G. Weyens, M. Jacobs **107–112**

The effect of B chromosomes and T-DNA on chromosomal variation in callus cells and regenerated roots of *Crepis capillaris*
J. Maluszynska **113–118**

***In vivo* formation of vanillin glucoside**
J. Sommer, C. Schroeder, J. Stöckigt **119–123**

Manganese toxicity to different growth processes *in vitro* in *Nicotiana*
G. Santandrea, S. Schiff, A. Bennici **125–129**

Research notes

Isolation and culture of mesophyll protoplasts from *Rosa hybrida*
R. Marchant, M.R. Davey, J.B. Power **131–134**

Somatic embryogenesis and shoot proliferation of *Mussaenda* cultivars
C.S. Cramer, M.P. Bridgen **135–138**

Plantlet regeneration from protoplast-derived haploid embryogenic calli of wheat
X. Gu, G.H. Liang **139–145**

Cytokinin pulse-mediated shoot organogenesis from cotyledons of Sitka spruce [*Picea sitchensis* (Bong.) Carr.] and high frequency *in vitro* rooting of shoots
P.M.W. Drake, A. John, J.B. Power, M.R. Davey **147–151**

Volume 50 No. 3

Original research papers

Plant regeneration of salt adapted callus of indica rice (var. *Basmati 370)* in saline conditions
S. Basu, G. Gangopadhyay, B.B. Mukherjee, S. Gupta **153–159**

In vitro* selection and physiological characterization of NaCl- and mannitol-adapted callus lines in *Brassica juncea
G. Gangopadhyay, S. Basu, S. Gupta **161–169**

Genetic analysis of short term callus culture and morphogenesis in pearl millet, *Pennisetum glaucum*
P.K. Mythili, V. Satyavathi, G. Pavankumar, M.V.S. Rao, V. Manga **171–178**

Enhancement of flavour biosynthesis from strawberry (*Fragaria* x *ananassa)* callus cultures by *Methylobacterium* species
I. Zabetakis **179–183**

Elicitor-induced changes of phenylalanine ammonia-lyase activity in barley cell suspension cultures
S. Peltonen, L. Mannonen, R. Karjalainen **185–193**

Stability of anthocyanin composition in *Ajuga reptans* callus and cell suspension cultures
A. Callebaut, N. Terahara, M. de Haan, M. Decleire **195–201**

Embryogenic callus formation, growth and regeneration in callus and suspension cultures of *Miscanthus* x *ogiformis* Honda Giganteus' as affected by proline
I. Bæksted Holme, P. Krogstrup, J. Hansen **203–210**

Research notes

Induction of anthocyanin accumulation in rose suspension-cultured cells by conditioned medium of strawberry suspension cultures
M. Sakurai, Y. Ozeki, T. Mori **211–214**

Glycerol permeability of rye leaf protoplasts as affected by temperature and electroporation
R.E. Pitt, J.E. Parks, S.C. Huber, J.A. Sangree **215–219**

Activated charcoal does not catalyze sucrose hydrolysis in tissue culture media during autoclaving
S.R. Wann, R.L. Veazey, J. Kaphammer **221–224**

Micropropagation of *Citrus halimii* – an endangered species of South-east Asia
M.N. Normah, S. Hamidah, F.D. Ghani **225–227**

Instructions to authors **229–231**

Author index **232**

Contents Volume 50 **233–235**
